SUMMARY

Experienced Frontend Developer based in Buenos Aires, Argentina, with a track record of success in leading and contributing to high-impact projects. Specializing in ReactJs, I have collaborated on projects for prominent companies like Falabella Financiero, Danone, and Skydropx, where I enhanced team performance, improved SEO, and developed innovative solutions. My experience extends to managing projects end-to-end, utilizing a range of technologies. Passionate about continuous learning and delivering exceptional results, I am now seeking new challenges and opportunities for growth in a dynamic environment.

EXPERIENCE

Technical Lead

Lapso

📅 09/2022 - 12/2022   📍 Mexico

- As a part of a team dedicated to the improvement of an online learning platform, I led the transfer of the entire platform from React to a Monorepo structure, implementing a new design in the process. This cross-functional team included both frontend and backend developers
- My role involved coordinating tasks using Jira and documenting progress and decisions in Confluence
- I applied Agile Methodologies to ensure efficient development practices
- Key technologies used in this project included ReactJs, Material UI, Jotai, and Storybook

Senior Frontend Developer

Skydropx

📅 09/2021 - 09/2022   📍 Mexico

- Increased the number of leads developing a B2C calculador to new sector.
- Enhanced team members improving their knowledge and soft skills.
- Worked on App code review and get a higer coverage.
- Improved Skydropx SEO by integrating structured data and upgrading performance.
- Worked on the migration of Skydropx's website from HTML/CSS in Ruby to NextJs.
